BUSINESS MANAGEMENT & COMPUTING – PAPER 4 (II)

FRIDAY, 19 JUNE 2009

REGISTRATION NO:

INSTRUCTIONS TO CANDIDATES

1. Time allowed: **1 hour 15 minutes.**
The first 15 minutes of this examination have been designated for reading time. You may not start to use the computer during this time.
2. Write your Registration Number on every page of the question paper.
3. Attempt **all** questions. Question 1 carries 15 marks and question 2 carries 5 marks.
4. Ensure that you initially save your work on the desktop and later on transfer it to a flash disk to be provided.
5. The question paper should be handed in to the invigilator at the end of the examination.

Question 1

The information in the table below was extracted from books of a company dealing in farm equipment:

Staff name	Age	Gross pay	P.A.Y.E
		Shs	Shs
Chebroti Tim	74	320,000	
Okumu Leo	60	240,000	
Mohammed Amin	55	600,000	
Kyoratungye Vincent	40	540,000	
Naome Atim	37	380,000	
Assy Jackson	50	450,000	
Musoke George	44	395,000	
Tumushabe Richard	29	235,000	
Mwesigwa Neogy	51	400,000	
Ronald Bisso	31	225,000	
Abubaker Okello	24	170,000	

Required:

- (a) Load an appropriate spreadsheet program and input the above data.
(2 marks)
- (b) Given that the company offers employment to people only at 18 years of age, compute the number of years each employee has been working for the company.
(3 mark)
- (c) Using a suitable function, compute the average age of the employees in the company.
(2 marks)
- (d) The company charges PAYE equivalent to 15% on the amount above a threshold of Shs 150,000. Compute the amount of monthly tax remittance to Uganda Revenue Authority by the company.
(2 marks)
- (e) Insert a column and compute the net pay for each employee.
(1 mark)
- (f) Compute the total wage bill for the company.
(1 mark)
- (g) Insert a suitable heading one line above the table and bold and centre the heading.
(3 marks)

- (h) Save the file on the flash disk provided with your registration number as its file name.

(1 marks)

(Total 15 marks)

Question 2

Load an appropriate word processing program and input the following text as it appears.

Web-based information management system

This paper describes the design, development and deployment of a large-scale dynamic web-based information management system in the intranet and extranet of a large, multinational computer company. It attempts to identify and address some of the issues to be encountered in projects of such scope.

The core concept and focus of this paper is that the Enterprise Document Management System (EDMS) field has missed a fundamental point in deploying web-based information management. We supply the argument that information systems that provide a large body of information/knowledge should contextualise that information such that it is pertinent to the user's requirements. Without this context, users encounter the well-known issues of disorientation and cognitive overhead [Ayers1994].

Required:

- (a) Center, boldface, change to upper case, double underline the heading.
- (b) Change the body text to full justification.
- (c) Insert a footer "web technology".
- (d) Insert a section break at the end of the first paragraph.
- (e) Save your document on the flash disk provided using your registration number as the file name.

(5 marks)

(Total 20 marks)
